Get Windows 10 Store Apps without switching your Local User Account to a Microsoft Account.

You can still log in to your Microsoft account for just the Store without switching to a full Microsoft account.

The process, however, is not terribly obvious.

To do so, follow these steps:

1. Launch the Store from your Start menu.

- 2. Click the user icon on the left side of the search box. (half circle with a full circle on top).
- 3. Click "Sign In" from the menu that appears.

4. Choose "Microsoft account" and log in like normal.
